

Holz Hausen version 1 - mistakes and collapse

Contributed by David Soede
Wednesday, 18 February 2009

Having built my platform and got all my wood split and ready, Kay then gave birth to our second child (Fidel). Suddenly an enormous amount of spare time vaporised, especially for building Holz Hausens! Eventually things settled down and early summer I started to build my first Holz Hausen. I say first, not because I ended up with more than one, but as you will see from the pics below, I had to rebuild it from scratch!
